

Information about our response to concerns about the Coronavirus

Burnaby Neighbourhood House will stay open until advised by medical officials to close. At this time we are following all suggestions from the Health Department (sanitization, handwashing, installing hand sanitizing stations, etc) and will update this information when necessary.

PHAC (public health agency of Canada) has assessed the public health risk for with COVID-19 as **LOW** for the general population in Canada. There is a higher risk of more serious cases for Canadians:

*with underlying medical conditions

*aged 65 and over

*with compromised immune systems

It is a personal decision to avoid contact in public - please make the choice based on your own comfort level. Please stay home and self-isolate for 14 days if you have traveled to a location known for an outbreak or you have been in contact with an infected person.

What you need to know to help you stay healthy

Wash your hands with soap and water thoroughly and often.

Cough and sneeze into your sleeve or a tissue. Dispose of tissue immediately and wash your hands.

Keep surfaces clean and disinfected.

Stay home when you are sick; Call 811 if you think you have been infected.

Do not touch your face.
